PREFACE

This Code constitutes a recodification of the general and permanent ordinances of the Town of Three Lakes, Wisconsin.

Source materials used in the preparation of the Code were the 1987 Code, as supplemented through June 20, 2000. The source of each section is included in the history note appearing in parentheses at the end thereof. The absence of such a note indicates that the section is new and was adopted for the first time with the adoption of the Code. By use of the comparative tables appearing in the back of this Code, the reader can locate any section of the 1987 Code, as supplemented.

The chapters of the Code have been conveniently arranged in alphabetical order, and the various sections within each chapter have been catchlined to facilitate usage. Notes which tie related sections of the Code together and which refer to relevant state law have been included. A table listing the state law citations and setting forth their location within the Code is included at the back of this Code.

Chapter and Section Numbering System

The chapter and section numbering system used in this Code is the same system used in many state and local government codes. Each section number consists of two parts separated by a dash. The figure before the dash refers to the chapter number, and the figure after the dash refers to the position of the section within the chapter. Thus, the second section of chapter 1 is numbered 1-2, and the first section of chapter 6 is 6-1. Under this system, each section is identified with its chapter, and at the same time new sections can be inserted in their proper place by using the decimal system for amendments. For example, if new material consisting of one section that would logically come between sections 6-1 and 6-2 is desired to be added, such new section would be numbered 6-1.5. New articles and new divisions may be included in the same way or, in the case of articles, may be placed at the end of the chapter embracing the subject, and, in the case of divisions, may be placed at the end of the article embracing the subject. The next successive number shall be assigned to the new article or division. New chapters may be included by using one of the reserved chapter numbers. Care should be taken that the alphabetical arrangement of chapters is maintained when including new chapters.

Page Numbering System

The page numbering system used in this Code is a prefix system. The letters to the left of the colon are an abbreviation which represents a certain portion of the volume. The number to the right of the colon represents the number of the page in that portion. In the case of a chapter of the Code, the number to the

left of the colon indicates the number of the chapter. In the case of an appendix to the Code, the letter immediately to the left of the colon indicates the letter of the appendix. The following are typical parts of codes of ordinances, which may or may not appear in this Code at this time, and their corresponding prefixes:

CODE	CDI:1
CODE APPENDIX	CDA:1
CODE COMPARATIVE TABLES	CCT:1
STATE LAW REFERENCE TABLE	SLT:1
CODE INDEX	CDi:1

Index

The index has been prepared with the greatest of care. Each particular item has been placed under several headings, some of which are couched in lay phraseology, others in legal terminology, and still others in language generally used by local government officials and employees. There are numerous cross references within the index itself which stand as guideposts to direct the user to the particular item in which the user is interested.

Looseleaf Supplements

A special feature of this publication is the looseleaf system of binding and supplemental servicing of the publication. With this system, the publication will be kept up-to-date. Subsequent amendatory legislation will be properly edited, and the affected page or pages will be reprinted. These new pages will be distributed to holders of copies of the publication, with instructions for the manner of inserting the new pages and deleting the obsolete pages.

Keeping this publication up-to-date at all times will depend largely upon the holder of the publication. As revised pages are received, it will then become the responsibility of the holder to have the amendments inserted according to the attached instructions. It is strongly recommended by the publisher that all such amendments be inserted immediately upon receipt to avoid misplacing them and, in addition, that all deleted pages be saved and filed for historical reference purposes.

Acknowledgments

This publication was under the direct supervision of David G. Poucher, Senior Code Attorney, and Robert MacNaughton, Editor, of the Municipal Code

Corporation, Tallahassee, Florida. Credit is gratefully given to the other members of the publisher's staff for their sincere interest and able assistance throughout the project.

The publisher is most grateful to town staff for their cooperation and assistance during the progress of the work on this publication. It is hoped that their efforts and those of the publisher have resulted in a Code of Ordinances which will make the active law of the town readily accessible to all citizens and which will be a valuable tool in the day-to-day administration of the town's affairs.

ADOPTING ORDINANCE

An Ordinance Adopting and Enacting a New Code for the Town of Three Lakes, Wisconsin; Providing for the Repeal of Certain Ordinances Not Included Therein; Providing a Penalty for the Violation Thereof; Providing for the Manner of Amending Such Code; and Providing When Such Code and This Ordinance Shall Become Effective.

The Three Lakes Town Board of Supervisors, of the Town of Three Lakes, Oneida County, Wisconsin, Ordains As Follows:

Section 1. The Code entitled "Code of the Town of Three Lakes, Wisconsin," published by Municipal Code Corporation, consisting of chapters 1 through 74, each inclusive, is adopted.

Section 2. All ordinances of a general and permanent nature enacted on or before July 1, 2000, and not included in the Code or recognized and continued in force by reference therein, are repealed.

Section 3. The repeal provided for in section 2 hereof shall not be construed to revive any ordinance or part thereof that has been repealed by a subsequent ordinance that is repealed by this ordinance.

Section 4. Except as otherwise provided, any person who shall violate any of the provisions of this Code shall, upon conviction of such violation, be subject to a forfeiture which shall be as follows:

- (a) *First offense.* Any person who shall violate any provision of this Code shall, upon conviction, forfeit not less than \$5.00 nor more than \$500.00, together with the costs of prosecution, and in default of payment of such forfeiture and costs of prosecution, shall be imprisoned in the county jail until such forfeiture and costs are paid, but not exceeding 90 days.
- (b) *Second offense.* Any person found guilty of violating any ordinance or part of this Code, who has previously been convicted of a violation of the same ordinance within one year shall, upon conviction, forfeit not less than \$10.00 nor more than \$500.00 for each such offense, together with the costs of prosecution, and in default of payment of such forfeiture and costs shall be imprisoned in the county jail until such forfeiture and costs are paid, but not exceeding six months.
- (c) *Continued violations.* Each violation and each day a violation continues or occurs shall constitute a separate offense. Nothing in this Code shall preclude the town from maintaining any appropriate action to prevent or remove a violation of any provision of this Code. The penalty provided by this section, unless another penalty is expressly provided, shall apply to the amendment of any Code section, whether or not such

penalty is reenacted in the amendatory ordinance. In addition to the penalty prescribed above, the town may pursue other remedies such as abatement of nuisances, injunctive relief and revocation of licenses or permits.

Section 5. Additions or amendments to the Code when passed in such form as to indicate the intention of the town board to make the same a part of the Code shall be deemed to be incorporated in the Code, so that reference to the Code includes the additions and amendments.

Section 6. Ordinances adopted after July 1, 2000, that amend or refer to ordinances that have been codified in the Code shall be construed as if they amend or refer to like provisions of the Code.

Section 7. This ordinance shall be effective March 7, 2002.

All references thereto shall be cited by section number (for example: section 13-6, Code of the Town of Three Lakes).
(Code 1987, § 25.07)

Sec. 1-2. Definitions and rules of construction.

The following words, terms and phrases, when used in this Code, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Generally. When provisions conflict, the specific shall prevail over the general. All provisions shall be liberally construed so that the intent of the town board may be effectuated. Words and phrases shall be construed according to the common and approved usage of the language, but technical words, technical phrases and words and phrases that have acquired peculiar and appropriate meanings in law shall be construed according to such meanings.

Acts of agents. When a provision requires an act to be done which may by law as well be done by an agent as by the principal, such requirement shall be construed to include all such acts when done by an authorized agent.

And/or. The word "and" may be read as "or" and the word "or" may be read "and" where the sense requires it.

Code. Whenever the term "Code" is used without further qualification, it shall mean the "Code of the Town of Three Lakes, Wisconsin", as designated in section 1-1.

Computation of time. The time within which an act is to be done or proceeding had or taken shall be computed by excluding the first day and including the last; and when any such time is expressed in hours the whole of Sunday and of any legal holiday, from midnight to midnight, shall be excluded. If the last day within which an act is to be done or proceeding had or taken falls on Sunday or legal holiday the act may be done or the proceeding had or taken on the next secular day. When the last day within which a proceeding is to be had or taken or an act done, which consists of any payment to or the service upon or filing with any officer, agent, agency, department or division of the state or of the county, or a city, village, town, school district or other division of the state, of any money, return, statement, report, notice or other document, falls on a Saturday and the duly established official office hours of such officer, agent, agency, department or division to which such payment is to be made or upon which such service is to be made or with which such return, statement, report notice or other document is required to be filed, do not include any office hours thereof on such Saturday, such proceeding may be had or taken or such act may be done on the next succeeding day that is not a Sunday or legal holiday. Regardless of whether the time limited in any ordinance for the taking of any proceeding or the doing of any act is measured from an event or from the date or day on which such event occurs, the day on which such event took place shall be excluded in the computation of such time. The expression "legal holiday" as used in this section means any statewide legal

holiday provided in Wis. Stats. § 895.20. When an act is permitted to be done by the use of the postal service, and the last day within the time prescribed by law for performing such act falls on a legal public holiday under federal law, or other holiday designated by the president such that the postal service does not receive registered mail or make regular deliveries on that day, the day shall be considered a legal holiday for purposes of this definition.

(b) *Summary abatement.* If the inspecting officer determines that a public nuisance exists within the town and that there is great and immediate danger to the public health, safety, or peace, the chair may direct the proper officer to cause the nuisance to be abated and charge the cost to the owner, occupant or person causing, permitting or maintaining the nuisance, as the case maybe.

Except as otherwise provided, any person found to be in violation of any provision of this chapter shall be subject to a penalty as provided in section 1-8 of this Code.
(Code 1987, § 20.05)

Sec. 54-2. Emergency invasive species control zone.

(a) *Purpose.* This section is enacted under authority of Wis. Stats. § 30.77(3)(a), to protect and preserve the public's interest in the outstanding natural resources and environment of the Three Lakes Chain of Lakes from degradation by the invasive Eurasian Water Milfoil (EWM).

(b) *Background.* EWM is a non-native invasive aquatic plant that, when established, rapidly spreads and can form large impenetrable mats which severely inhibit or preclude boating, swimming, and fishing. Uncontrolled infestations have greatly reduced lake use and riparian property values elsewhere in Wisconsin and the U.S. EWM was found in the Eagle River Chain downstream of the Burnt Railways Dam in the early 1990s. It was subsequently found in the Three Lakes Chain in the Long Lake channel just upstream of the dam but has not been found, so far, elsewhere in the Three Lakes Chain. Despite intensive control efforts beginning in 2005, EWM has spread upstream in the channel. If not controlled, EWM will eventually clog the channel and spread into the rest of the Three Lakes Chain with consequent severe impact on the value and enjoyment of these incomparable public waters. Motorized watercraft activities are the proximate cause of the spread of EWM upstream against water flow. Control measures include removal of plants found on boats, exclusion of motorized watercraft from near-surface beds of EWM infected areas, and chemical treatment of EWM beds. Effective chemical treatment is possible only in the spring, in near still water conditions, and when the EWM growth begins before native water plants begin growth.

(c) *Definitions.* Definitions provided in NR 5.001, Wisconsin Administrative Code, are hereby adopted by reference. Supplementary definitions applicable to this section are:

Motorized watercraft. Boats as defined in NR 5.001 moved by propulsion machinery whether propeller, fan, or water jet driven.

Non-motorized watercraft. Boats as defined in NR 5.001, including, but not limited to, canoes, kayaks, sail boats, rafts, and fishing boats, not moved by propulsion machinery.

Slow-No-Wake. Moving at the slowest possible speed while maintaining steerage control.

(d) *Establishment and boundaries of EWM control zone.* Effective immediately, an EWM control zone is established in the Long Lake channel. The side boundaries of the control zone shall be the ordinary high water mark (OHWM) on the banks of the channel and as extended across the mouth of Lower Ninemile Creek. The downstream boundary shall be the spillway on the Burnt Rollways Dam. The upstream boundary shall be a line between and approximately perpendicular to the OHWM on either bank at the junction of the channel with Long Lake proper, the line to cross the center of navigation of the channel at coordinates N 45 52.944

W 089 08.720. However, the town chairman may, with 36-hour public notice in accordance with subsection (g)(2) below, change the control zone boundaries based on infestation locations, control treatment requirements, or for other good cause, after obtaining advice as provided in subsection (e) below.

(e) *Temporary prohibition of motorized boating in the EWM control zone.* To facilitate effective chemical treatment and control of spread of EWM infestation, operation of motorized watercraft may be temporarily prohibited in the EWM control zone by the town chairman, except as allowed by subsection (D) below, for at least one week to a maximum of three months, when necessary due to appearance of near-surface weed beds in the control zone, exigencies of weather and/or water flow at the dam, chemical treatment procedures, or for other good cause. In taking such action, the chairman may consider operational and technical advice from the Three Lakes Waterfront Association board of directors, AIS control contractors, and the state department of natural resources.

(f) *Restrictions on boating in the EWM control zone.*

- (1) Except when permitted under b. below, all watercraft movement in the EWM control zone is indefinitely restricted to operation at slow-no-wake speed, shall avoid all identified EWM infestations and treatment areas, and shall comply with all waterway markers, signs, and buoys.
- (2) Operation of motorized watercraft in the control zone is permitted at faster than slow-no-wake speed in emergencies, for EWM treatment and control, and for enforcement of this section or other boating regulations.
- (3) During the temporary motorized boating prohibition period imposed under subsection (e), owners of riparian property abutting the control zone, and their guests, nevertheless may transit the control zone with motorized watercraft for travel to and from portions of the Three Lakes Chain outside of the control zone. Transit must be in compliance with (1) above and (5) below, and only for direct ingress and regress to that owner's property.
- (4) Non-motorized watercraft may transit the control zone at any time in compliance with (1) above and (5) below.
- (5) Operators of all watercraft in the control zone, immediately upon leaving it, shall visually inspect the hull, transom, and propulsion machinery. This inspection shall be conducted at full stop when leaving the control zone by water, or on land immediately when taken directly out of the water from the control zone. All aquatic plants regardless of species found on or in the boat or an associated trailer shall be totally removed and properly disposed of on land.
- (6) The provisions of this section shall remain in force indefinitely and shall not automatically expire at the end of the temporary motorized boating prohibition period provided in subsection (e) above.

(g) Public notice and EWM control zone marking.

- (1) The town clerk shall cause this section to be posted on the town website and published in the next available edition of the town official newspaper. A copy shall be mailed to all known marinas and riparian restaurants in the town, to the Three Lakes Area Chamber of Commerce and Visitors Center, Eagle River Chamber of Commerce and Visitors Center, Vilas County Unified Lower Eagle River Chain of Lakes Commission, the Wisconsin Department of Natural Resources in Rhinelander, and to the Wisconsin Valley Improvement Company, and all other owners of riparian properties abutting the control zone at their current tax roll addresses.
- (2) Notification of any change to control boundaries, or imposition or removal of a prohibition on motorized boating, shall be disseminated by mail, fax, or email within 36 hours to the recipients identified as in (1) above.
- (3) The town crew shall place and maintain appropriate buoys, signs, and markers to notify waterway users of the restrictions of this section.

(h) State boating laws and regulations adopted. State boating laws as found in Wis. Stats. §§ 30.50 to 30.71 and 30.742, and NR 5, Wisconsin Administrative Code, are hereby adopted by reference.

(i) Enforcement and penalties. Qualified law enforcement officials employed or contracted by the town shall issue citations for violations in accordance with Wis. Stats. § 66.0113. Deposits as established in the Uniform Deposit and Bail Schedule adopted by the Wisconsin Judicial Conference are hereby adopted by reference with all references to fines amended to read forfeitures and all references to imprisonment deleted.

Sec. 66-6. General road standards.

Except as provided in section 66-8, the town shall not construct nor accept ownership or responsibility of any kind for a road, nor approve any proposed subdivision including a road, except as provided in section 66-7(b), unless the road conforms to the following standards:

- (1) The road shall start from a public road and fully comply with entrance requirements in effect at the time.
- (2) The roadway shall be 30 feet between the near edges of the ditches. The roadway shall be centered on a right-of-way 66 feet wide.
- (3) Each dead-end road shall have a cul-de-sac roadway constructed at the end of the road.
 - a. Basic cul-de-sac criteria. The cul-de-sac shall be of semicircular design. See figure 6.6(3)(a).
 1. The basic cul-de-sac shall have a paved radius measuring 50 feet. The center of the radius shall be measured 50 feet from the end of the roadway and shall be positioned along the near edge (cul-de-sac side) of the pavement.
 2. Gravel shoulders shall extend to an additional three feet beyond the edge of the paved roadway.
 3. Clearing of trees, stumps, brush and other shall extend to a distance of 10 feet beyond the pavement edge.
 4. The right-of-way shall extend at a 75-foot radius from this same point.
 - b. Alternate cul-de-sac criteria. The alternate criteria allows for trees to remain within the cul-de-sac. The alternate cul-de-sac shall be of circular design (see figure 6.6(3)(b)).
 1. The radius of the right-of-way circle shall be a minimum of 75 feet in width.
 2. The center of the circle shall be marked with a standard surveyor's pipe and shall remain permanent.
 3. The roadway pavement shall increase to 26 feet in width within the alternate cul-de-sac and the centerline of the pavement shall have a minimum radius of 45 feet.
 4. Additionally, paved roadway shall extend to a distance of 24 feet from the intersection point of the main roadway and the circular roadway.
 5. Gravel shoulders shall extend to an additional three feet beyond the paved roadway inside and outside the paved roadway. Culvert installations may be necessary.
 6. Clearing of trees, stumps, brush and other shall extend to a distance of ten feet beyond the pavement edge on both sides of the circle and along roadway.
- (4) Culverts, ditches, erosion control structures and bridges shall be installed or constructed wherever the natural hydraulic flow or drainage would be obstructed or constricted by the road, and wherever required to preclude traffic obstruction or flood

or erosion damage to the roadway; the right-of-way or the adjacent properties. Culverts shall be a minimum of 18 inches in diameter and 40 feet in length. The top of the culvert shall be not less than one foot below the roadway surface. Bridges and other structures shall conform to standard specifications and be certified by a licensed engineer to meet those specifications.

- (5) Stumps and brush shall be uprooted to a minimum width of 40 feet. All loose stumps, logs and brush shall be removed from the right-of-way. No logs, stumps or brush shall be buried within the roadway. Graded and other disturbed areas outside the roadway shall be suitably seeded, re-sodded or otherwise prepared to prevent erosion until natural vegetation recovers sufficiently to serve this purpose. Tree branches overhanging the right-of-way shall be removed to a height of 16 feet and a width of 40 feet.
- (6) Curves shall be constructed to a 150-foot or greater radius unless precluded by topography. The road surface on a curve shall be suitably sloped down on the inside to allow safe travel at 35 mph under normal dry road conditions. Where topography prevents meeting these requirements, traffic warning signs, such as "curve ahead," or "slow," shall be installed.
- (7) Swampy or boggy areas shall be excavated and refilled with breaker run and gravel or to a width of 30 feet and a depth sufficient to ensure that the roadway will not sag, heave or displace laterally.
- (8) A minimum six-inch gravel base 26 feet wide, equivalent to 1,271 cubic yards of gravel per mile, shall be applied before paving.
- (9) The road shall be paved with a hot-mix bituminous surface 20 feet wide to a minimum depth of two inches after final compaction.
- (10) The roadway shall be crowned with a minimum of a three-inch rise at the centerline (crown), except for slopes and curves if no crown is required for drainage.
- (11) Standard traffic safety signs shall be installed on four-inches x four-inches x ten-feet treated posts at intersections, curves with obstructed visibility and similar hazard points. Road name signs shall be installed conforming to current town road signs on two-inches x 10½-feet galvanized posts with anchor plates.
- (12) Work shall be done only after obtaining county, state department of transportation and state department of natural resources permits, if required.

(Code 1987, § 8.01(6); Ord. of 6-21-2005)

Sec. 66-7. Subdivision roads; conditions for plat approval.

(a) Any road designated in a plat as being dedicated to the town as a public road shall conform to the standards prescribed in section 66-6.

(b) Roads in subdivisions of five or more lots, or 500 or more feet of road, shall conform to the standards prescribed in section 66-6.

(c) Roads in subdivisions with less than five lots and less than 500 feet of road may have 20-foot wide roadways and 50-foot rights-of-way. Such roads may be surfaced with not less than five inches of gravel in lieu of the specified six-inches gravel base and two-inches bituminous surface. Curves may be constructed to 100-foot radii and 25 mph safe travel speeds. All other standards prescribed in section 66-6 shall be met. Any road in a plat not conforming to the standards provided in section 66-6 shall be designated on such plat as a private easement for the use in common of all lot owners within such subdivision, and such plat shall further provide an inscription that the town's acceptance of any road within the subdivision as a public road is conditional upon meeting the standards prescribed in section 66-6. Such plat shall state "The town is not responsible for the maintenance of the easement road nor intends to in the future." Furthermore, a separate document setting forth the beneficiary, scope, terms and conditions of such private easement shall be recorded prior to the recording of the plat and shall be submitted to the town for approval, along with the plat itself.

(d) All property documents for subdivision properties on a road not accepted for maintenance by the town shall be recorded with a provision showing that the town has no responsibility whatsoever for that road. A proposed subdivision containing such a private road shall not be approved by the town board until the developer presents a copy of the proposed document provision meeting the requirement of this subsection. The developer shall, within 90 days of final approval of the subdivision, submit to the town a copy of the survey, plat or deed as recorded for each affected parcel in the subdivision showing the required provisions.

(e) To ensure initial and continued compliance with prescribed standards, roads in a subdivision shall be subject to inspection by the town at any time. Should an existing road fail to meet requirements, the owner shall be given formal written notice by the town board of the corrective action required. If not completed within a prescribed deadline, which shall not exceed six months, the town may deny access onto that road from a town road or may complete the corrective action and add the cost to the tax roll for properties on which the road is located.

(f) The town board shall not approve a proposed subdivision including a road, unless that road has been completed to prescribed standards or the developer has furnished a cash deposit, performance bond or equivalent surety with a value equal to the cost of the road construction required, plus ten percent, deposited with or payable to the town. Roads in the subdivision shall be completed to prescribed standards within 18 months of final approval of a subdivision unless the town board shall have extended that deadline for good cause. No extension in excess of 36 months shall be allowed.

(g) The town shall conduct a final acceptance inspection for new or reconstructed subdivision roads.

- (1) The road crew foreman and the appointed member of the board of supervisors shall conduct a final inspection and shall submit an inspection report to the town board.
- (2) This inspection shall include a review of the pertinent road requirements including but not limited to asphalt road width and crowning requirements, shoulder road width, right-of-way clearing requirements, and cul-de-sac issues.
- (3) The report shall include a listing of each of the review items. Any deficiencies shall be noted.
- (4) The report shall also list recommendations by the road crew foreman and by the appointed member of the board of supervisors.

(h) Where a subdivision road is to be constructed or brought up to required standards, should the completion deadline be missed or the road not meet prescribed standards at the deadline, the developer shall be given formal written notice citing the specific corrective action required. If, within 90 days of that notice, corrective action is not completed or the developer and town have not reached an agreement under which the deficiencies are to be met, the town shall complete the road or correct the deficiencies and retain a sufficient amount of the bond or deposit, including interest, to cover all costs, including legal and inspection costs.

(i) Subdivision roads which exist prior to the effective date of adoption of this section shall be exempt from its provisions. However, the town shall not subsequently accept any responsibility for such roads except in accordance with section 66-8.

(Code 1987, § 8.01(7); Ord. of 6-21-2005)

Sec. 66-8. Acceptance of unpaved roads.

The town shall not accept ownership and/or maintenance responsibility for any road constructed after adoption of this section and which does not meet the standards prescribed in section 66-6. The town may, in its absolute discretion, accept ownership and/or maintenance responsibility for a prior road not paved with a bituminous surface if constructed prior to April 6, 1993, subject to the conditions stated in this section; however, adoption of this section shall not have any retroactive effect upon any valid preexisting agreements of developers with the town regarding the construction of roads.

- (1) The road must meet all requirements of section 66-6 except it may have five-inches or greater gravel surface in lieu of the specified six-inches gravel base and two-inches bituminous surface.
- (2) The road must be in good condition and free of any need for immediate repair or maintenance work. The town chair or a town board member appointed by the town chair and the town foreman shall conduct an inspection to ascertain this fact and compliance with requirements. Any deficiencies must be corrected at no cost to the town prior to acceptance.

- (3) The road must be normally used only by residents of, and occasional visitors to, properties having direct access to the road and by service and deliveries to private residences. No resort, camp or other public or commercial establishment or activity may be located on that road.
 - (4) The road must be at least 500 feet, but no more than two miles in length.
 - (5) There must be a minimum of four platted home sites and two occupied existing private residences per mile, but not less than two occupied private residences, on the road.
 - (6) The road must either be a dead-end or connect two existing publicly maintained roads. No other private road, excepting driveways, may connect to it.
 - (7) The owners of all properties fronting on the road, and all other persons, if any, entitled by recorded easement to use the road, must petition the town board for acceptance of the road and acknowledge that the town is not required to pave the road with a bituminous surface. The petition must provide, or be accompanied by, reliable cost figures showing the expected maintenance cost to the town over the next 15 years compared to the expected cost of maintenance if paved with a bituminous surface.
 - (8) The survey, plat, deed or other recorded documents for all properties fronting on, and/or entitled by recorded easement to use the road, must contain a provision showing that the town has no responsibility to upgrade the road to a bituminous surface.
 - (9) The town board shall deny any petition which does not meet all the requirements of this section except subsection (8) of this section. The town board may conditionally accept a petition upon a determination that acceptance of the road is in the best interest of the town, subject to evidence of completion of the requirements of subsection (8) of this section.
 - (10) All owners having any interest in land proposed for dedication as a town road must join in the conveyance of such land to the town. The petitioners shall provide suitable evidence of legal title prior to acceptance.
- (Code 1987, § 8.01(8); Ord. of 6-21-2005)

(1) The grantee shall maintain and operate its network in accordance with the rules and regulations incorporated herein or as may be promulgated by Federal Communications Commission, the United States Congress, or the State of Wisconsin.

(m) The grantee shall continue, through the term of the franchise, to maintain the technical standards and quality of service set forth in this article. Should the town find, by resolution, that the grantee has failed to maintain these technical standards and quality of service, and should it, by resolution, specifically enumerate improvements to be made, the grantee shall make such improvements. Failure to make such improvements within three months of such resolution will constitute a breach of a condition for which penalties contained in section 68-76 of this article are applicable.

(n) The grantee shall keep a monthly service log that indicates the nature of each service complaint received in the last 24 months, the date and time each complaint was received, the disposition of each complaint, and the time and date thereof. (b) If there is a change of franchise, or if a new operator acquires the system, the grantee shall cooperate with the city, new franchisee or new operator to maintain continuity of service to all subscribers.

(c) If the grantee fails to operate the system for seven consecutive days without prior approval of the town or without just cause, the town may, at its option, operate the system or designate an operator until such time as the grantee restores service under conditions acceptable to the town or a permanent operator is selected. (Ord. of 7-2-2002, § 25)

(b) During the terms of the franchise and any renewal thereof, the grantee shall maintain a central office, designated by the grantee, for the purpose of receiving and resolving all complaints regarding the quality of service, equipment malfunctions, and similar matters. The office must be reachable by a local and/or toll-free telephone call to receive complaints regarding quality of service, equipment functions and similar matters. The grantee will make good faith efforts to arrange for one or more payment locations in a central location where customers may pay bills or drop off equipment.

(c) As subscribers are connected or reconnected to the system, the grantee shall, by appropriate means, such as a card or brochure, furnish information concerning the procedures for making inquiries or complaints, including the name, address and local telephone number of the employee or employees or agent to whom such inquiries or complaints are to be addressed.

The engineer shall sign all records of special tests and forward to the town such records with a report interpreting the results of the tests and recommending actions to be taken.

(f) The town's rights under this section shall be limited to requiring tests, analysis and reports covering specific subjects and characteristics based on complaints or other evidence when and under such circumstances as the town has reasonable grounds to believe that the complaints or other evidence require that tests be performed to protect the public against substandard cable service.

(Ord. of 7-2-2002, § 26)

Sec. 68-57. Grantee rules and regulations.

The grantee shall have the authority to promulgate such rules, regulations, terms and conditions governing the conduct of its business as shall be reasonably necessary to enable the grantee to exercise its rights and perform its obligations under the franchise, and to assure uninterrupted service to each and all of its customers; provided, however, that such rules, regulations, terms and conditions shall not be in conflict with the provisions hereof or applicable state and federal laws, rules and regulations.

(Ord. of 7-2-2002, § 27)

Sec. 68-58. Franchise fee.

(a) A grantee shall pay to the town a franchise fee in the amount designated in the franchise agreement. Unless otherwise specified in the franchise agreement, such franchise fee shall be five percent of the grantee's gross revenues.

(b) The franchise fee payment shall be in addition to any other tax or payment owed to the town by the grantee and shall not be construed as payment in lieu of municipal property taxes or other state, county or local taxes.

(c) The franchise fee and any other costs or penalties assessed shall be payable quarterly on a calendar year basis to the town within 45 days of the end of each quarter. The grantee shall also file a complete and accurate verified statement of all gross revenues as previously defined within 45 days of the end of each quarter.

(e) If any franchise fee payment or recomputed amount, cost or penalty, is not made on or before the applicable dates heretofore specified, interest shall be charged from such date at an annual rate of 12 percent. The grantee shall reimburse the town for any additional expenses and costs incurred by the town by reason of the delinquent payment(s), including, but not limited to, attorney's fees, consultant fees and audit fees.

(a) A franchise shall not be assigned or transferred, either in whole or in part, or leased or sublet in any manner, nor shall title thereto, either legal or equitable or any right, interest or property therein, pass to or vest in any person without the prior written consent of the town. The grantee may, however, transfer or assign the franchise to a wholly owned subsidiary of the grantee and such subsidiary may transfer or assign the franchise back to the grantee without such consent, providing that such assignment is without any release of liability of the grantee. Any proposed assignee must show legal, technical and financial responsibility as determined by the town and must agree to comply with all provisions of the franchise. The town shall have 120 days to act upon any request for approval of a sale or transfer submitted in writing that contains or is accompanied by all such information as is required in accordance with FCC regulations and by the town. A rebuttable presumption that a transfer of control has occurred shall arise upon the acquisition or accumulation by any person or group of persons of 40 percent of the voting shares of the grantee. Every change, transfer or acquisition of control of the grantee shall make the franchise subject to cancellation unless and until the town shall

have consented thereto, which consent shall not be unreasonably withheld. For the purpose of determining whether it shall consent to such change, transfer or acquisition of control, the town may inquire into the legal, technical, financial and other qualifications of the prospective controlling party, and the grantee shall assist the town in such inquiry.

(c) The consent or approval of the town to any transfer of the grantee shall not constitute a waiver or release of the rights of the town in and to the streets, and any transfer shall by its terms, be expressly subordinate to the terms and conditions of the franchise.

(d) In the absence of extraordinary circumstances, the town shall not be required to approve any transfer or assignment of a new franchise prior to substantial completion of construction of the proposed system.

(e) In no event shall a transfer of ownership or control be approved without the successor(s) in interest agreeing in writing to abide by the terms and conditions of the franchise agreement. (Ord. of 7-2-2002, § 29)

The cost of such network will be borne by the town as negotiated between the grantee and the town. Such network may be provided as needed by utilizing capacity on the system.
8. Provided, however, these uses may be combined on one or more channels until such time as additional channels become necessary in the opinion of the town. Studios and associated production equipment will be located in a mutually agreed upon site to meet the need for educational and local governmental access as noted in subsections (1), (2) and (3). Financial and technical support and replacement and maintenance of equipment of this facility shall be separately incorporated into the franchise by agreement.

(b) The town may also adopt such regulations at the request of grantee upon application.

(Ord. of 7-2-2002, § 35)

Sec. 68-66. Performance evaluation sessions.

The town acknowledges that, pursuant to federal law, it does not have jurisdiction nor enforcement rights over all the standards and services mentioned above, including programming and the application of all new technologies under a cable television franchise. Nothing in this subsection shall be construed as requiring the renegotiation of the cable franchise agreement.

(e) Members of the general public may add topics either by working through the negotiating parties or by presenting a petition. If such a petition bears the valid signatures of 50 or more residents of the town, the proposed topic or topics shall be added to the list of topics to be discussed at the evaluation session.

Should federal or state law permit further rate regulation beyond basic service the town may, if certified, assume such rate regulation and adopt appropriate procedures for such regulation. Grantee must provide 30 days' notice to town of any increase proposed in the price to be charged for the basic service tier.

The town shall cause to be served upon the grantee, at least 20 days prior to the date of such meeting, a written notice of intent to request such termination and the time and place of the meeting.
